Education

Hogeschool Utrecht 2023-2028
Bachelor, HBO-ICT (Open-ICT)

ROC Flevoland 2020-2022
MBO 4, Software Developer

Work Experience

Jaspers Media May 2022-Aug 2024
Full stack developer, Amsterdam

- After my internship I was hired on as a developer here, during my gap year (-1 month) I was responsible for all critical bugfixes and pull requests.

Jaspers Media Nov 2021-May 2022
Intern Software developer, Amsterdam

- At the start of my internship I was mostly busy rewriting our website (with a complete redesign) from Innertia.js to a Nuxt 3 and Laravel app with a focus on SEO and performance.
- Near the end of the internship the rewrite successfully went live.
- I also closely worked with other interns and coworkers new on the project and taught them how we work with Laravel and Nuxt being the one people went to when they couldn't figure something out.

Hard Skills

These skills are roughly ordered by how comfortable I am with them, with the first being the most comfortable or experienced.

- **Programming Languages:** PHP, JavaScript, Go
- **Languages:** Dutch (native), English (fluent)
- **Frameworks:** Laravel, Nuxt, TailwindCSS, Echo (Go)
- **Tools:** Git, Docker, Asana, Figma, Jira, Azure DevOps
- **Databases:** MySQL/MariaDB, Redis, MongoDB
- **Other:** Linux, Nix

Soft Skills

- **Communication:** I am able to communicate clearly and effectively with my coworkers.
- **Problem Solving:** I am confident in my ability to solve problems quickly and effectively.
- **Scrum:** I am very familiar with scrum and its principles having used it at both my schools.
